2 The Deputy Registrars keep the Criminal and Appellate Minutes, and assist the Registrar in the management of business of the Court and of the Office.

3 The duties of the Attorney-General are not clearly defined, but are in many respects analogous to those of the Attorney-General in England, though in some respects they resemble those of the Lord Advocate in Scotland. All Contracts and Deeds affecting the Government are prepared or settled by him; and he prepares all the Legislative Enactments of Government. He acts as Public Prosecutor, and instructs Magistrates in Criminal proceedings. All informations in the Supreme or District Courts run in his name, and her, some one deputed by him, appears for the Crown in most civil cases.

HIS EXCELLENCY is also pleased, on the recommendation of the Superintendent of Wrecks, to approve of the following Regulations for the guidance of Receivers :—

1.—*Receivers will bear in mind that the principal object of the Ordinance 5 of* 1861, *and of their appointment thereunder, is*—

1st—The rendering of assistance.

2nd—The protection and preservation of wrecked property and the restoration thereof to the owners.

3rd—The protection of the Customs revenue.

4th—The settlement of salvage claims.

The provisions of clauses 3, 7, 8, 14, 16, 17, 21 to 27, and 31 to 32 give them full powers to carry out these objects.

2.—*Inquiries into Wrecks and Casualties at Sea, clause* 3 ; *Ships in distress, clause* 14.

In making these inquiries the officer will remember that he is exercising a highly important function, and that his report may be the foundation of proceedings deeply affecting the interests of individuals. He must therefore most carefully endeavour to arrive at the truth, and should especially direct his attention whether the casualty happened from avoidable or unavoidable causes,—particularly as to the (*a*) unseaworthiness or insufficient equipment of the ship ; (*b*) insufficient or improper manning ; (*c*) improper loading, overloading, bad stowage ; (*d*) misconduct, incompetency, or neglect of master, officers, or crew ; (*e*) ignorance of lights, or navigation of the coast ; (*f*) neglect of heaving the lead.

3.—*Custody of wrecked property, clauses* 9, 16, 17, *and* 18.

Clause 9.—This clause refers to property recovered from a ship wrecked or in distress at the time of wreck or casualty, and the object of its provision is to secure the property in the confusion which attends a shipwreck ; to protect the Customs' revenue ; to provide for payment of fees, expenses, and salvage claims. But if the master, or if the owner, or any duly appointed agent of owner or master is in possession, and is able to take and keep custody of the property, and if all claims are paid or provided for by proper security, the Receiver need not take possession or detain the property, but he will offer his services and render such assistance as may be required.

Clauses 16 and 17 refer to wreck saved or taken possession of at any other time.

Clause 18.—This notice should be given when the wreck in custody exceeds the value of Rs. 50, and the particulars of all articles taken possession of by the Receiver will be entered in the Report Book No. 1, per form annexed.

4.—*Wreck arrested by order of Court of Law.*

When a derelict ship in the custody of a Receiver, or other wrecked property detained by the Receiver for the payment of salvage, is arrested by virtue of a warrant or other instrument of Court, the Receiver should not give up the claims to fees and to any expenses he may have incurred, but should send a copy of his account to the person taking such charge, giving notice of his lien, and that the property must not be restored until the amount of his claims be paid. A copy of the account and notice should also be forwarded to the Registrar or Secretary of the Court issuing the warrant ; and in the event of property being restored without payment of Receiver's claims, he should report the circumstances to the Superintendent of Wrecks, and should resume possession of the property until his claims are satisfied.

5.—*Sale of Wreck Property, clauses* 19, 27, *and* 28.

Clause 19 provides for the disposal of wreck of small value, derelict, flotsam or jetsam, so constantly found on the coasts of this Island ; and should the Receiver find it necessary to sell property under the provisions of clause 27, he will, if the property be claimed, endeavour in doing so, if possible, to act in concert with the owners and insurers.

All sales of importance and value should be advertised in the *Gazette* and local papers ; and notice of intended sale affixed at the Custom House of the Port. The account of wreck sold is to made in form No. 3 (annexed).

6.—*Salvage clauses* 21 to 26.

The decisions of questions as to salvage, if the parties cannot agree, must be determined by the Court having jurisdiction in that behalf ; but the Receiver has important duties in endeavouring to settle salvage claims amicably, in providing for what may be due by detaining the property saved ; in releasing the property on proper security being given ; in selling the property, when necessary, to satisfy the claim of salvors ; and in apportioning money paid in satisfaction of such claims ; and the Receiver will recollect that, whilst providing for the claims of *bonâ fide* salvors, he must, as far as he can, protect property against vexatious and improper claims.

The essentials of salvage service are—(*a*) the degree of danger from which the lives of property are rescued ; (*b*) the value of the property saved ; (*c*) the risk incurred by the salvors ; (*d*) the value of any property by the use of which the services are rendered, and the danger it was exposed to ; (*e*) the skill shown in rendering the service ; (*f*) the time and labour occupied.

The salvage should be in proportion to the use of these essentials ; but where scarcely any, or only the last exist, and the same is little more than mere work or labour, it should be rewarded accordingly.

The amount of reward should not however increase in direct proportion to the value of the property ; and as a general rule it may be borne in mind that the Courts of Admiralty very seldom, if ever, give more than one-half the value of the property saved.

7.—*With a view to encourage salvors and finders of unclaimed wreck and drift goods sold and taken charge of by Receivers under provisions of clauses* 19 *and* 28, *the following rewards may be given, viz.* :—

Upon the net value of property of Rs. 25 or under (two-thirds) - - -	$\frac{2}{3}$
When it exceeds Rs. 25 and under Rs. 50 (one-half) - - - -	$\frac{1}{2}$
When of Rs. 50 and above (one-third) - - - - - -	$\frac{1}{3}$

8.—*Delivery of Property to Owners.*

On payment of all sums due for salvage, duties, fees and expenses, the Receiver will deliver up all property which comes into his possession or custody, and the proceeds of such parts of it as may have been sold, to any person who proves himself to the satisfaction of the Receiver to be the owner of such property, or agent duly appointed by him, taking receipts for the same. The owner of the ship being responsible for the cargo, and the master of the ship having, as the servant of the owner, the legal custody thereof, the Receiver will treat the master, when present, as the agent of the owner—not only of the ship, but also of the cargo ; unless and until it is clearly proved that the owners of either have put an end to such agency.

9.—*Accounts and Returns.*

The Receiver will keep a Report Book according to form No. 1, in which he will enter the particulars of every description of article taken into his custody. The reference numbers are to commence with No. 1 on January 1 of each year.

The reporting of goods taken possession of for the Receiver should be made according to form No. 2, and the sale account per form No. 3.

The Quarterly Returns, as per form No. 4, are to be forwarded through the Superintendent of Wrecks ; and the net proceeds of all wreck, the property of Government as unclaimed, is to be paid into the General Treasury quarterly, the Treasurer being required to receive such moneys on account of wrecks.

By His Excellency's command,

W. C. Gibson,
Colonial Secretary.

NOTE.—The figures under the heads Population (exclusive of those for 1871 and 1881, when a Census was taken), Births, Marriages, Deaths, Schools, and Cultivation, are only approximative. The registration of Deaths is compulsory; registration of Births is optional. The figures under the head Schools and Scholars for 1882 do not include Private Schools unaided by Government.

The increase in Imports and Exports during 1853 is chiefly owing to a larger importation of Specie than usual.

† Exclusive of the estimated average of cultivated land in the District of Kégalla, Western Province.

NOTE.—The great difference in value of Exports for 1873, as compared with 1871 and 1872, arises from the average value of coffee during 1873 in the local market previous to shipment being taken at £4. 10*s.* per cwt. for plantation and £4 per cwt. for native, instead of £2.14*s.* and £2 as heretofore.

The money figures from 1874 to 1885 have been converted from rupees to pounds sterling, at 1*s.* 10½*d.* to the rupee; for 1886 and 1887, at 1*s.* 7*d.* to the rupee; for 1888, at 1*s.* 4½*d.* to the rupee; for 1889 & 1890 it is shown in rupees; prior to 1874 at 2*s.* to the rupee.

CLASSIFICATION OF REVENUE.

CUSTOMS.

These duties are collected under and agreeably to the directions of the Ordinances 17 of 1869, 14 of 1871, 22 of 1873, 39 of 1884, and 8 of 1885, and under Proclamation of November 10, 1877; under Ordinance 22 of 1877, by which a royalty of 25c. is levied on every hundredweight of plumbago exported beyond seas; and under Ordinance 11 of 1869 and Proclamation dated January 7, 1882, by which a royalty of Rs. 100 is levied on each elephant shipped from this Island to any place beyond the seas. Warehouse rent charge upon goods placed in the Queen's Warehouses is levied by Government Notices dated October 20, 1876, July 6, 1877, and December 2, 1887, under authority of the 13th clause of the Ordinance 17 of 1869. Export duties are collected under Ordinance 9 of 1882.

PORT AND HARBOUR DUES.

Port Dues are levied at all ports, except Colombo, under the Ordinances 17 of 1869 and 14 of 1871. The rates are 8c. per ton inwards and 8c. per ton outwards on loaded vessels. At Colombo, Harbour Dues are levied under Ordinance 6 of 1875, section 8, and Proclamations of November 7, 1882, May 6, 1885, March 27, 1887, and November 18, 1887, on ships entering the port, on ships discharging or loading cargo, and on Imports and Exports. Under this head are also brought to account receipts for the hire of Government boats and moorings, and half pilotage fees recovered under the Ordinance 6 of 1865. For Colombo Harbour a special tariff was published under Proclamations dated June 12, 1884, and March 20, 1886.

LAND SALES.

Under this head are included the receipts derived from the sale of Crown lands and cinnamon gardens, under the rules laid down in the Minutes of the Governor of January 14, 1857, May 14, 1875, and October 9, 1890, and the half-improved value of land under the provisions of the Ordinance 12 of 1840; at Rs. 2·50 an acre under the Minute of August 8, 1884; also the proceeds of sale of paddy lands in the irrigation districts, under the Minutes of February 27, 1857, and May 21, 1868, and grants of land under the Minute of August 8, 1844.

LAND REVENUE.

Rent or Tax on Paddy.—The receipts classed under this head are derived from the rent or tax—usually one-tenth or one-fourteenth—of the produce of all lands cultivated with rice. In the Western and Southern Provinces the share of the produce of rice lands payable as rent or tax is, however, in many cases, one-half or one-fourth, and sometimes one-third, one-fifth, one-eighth, and one-twentieth; the differences in the rates being due to the different circumstances under which the particular lands were granted by successive Governments. Under the Dutch a large area of rice land was held in return for personal services under the title of "accommodessans"—a tenure which was commuted by the Proclamations of September 3, 1801, and April 22, 1803, for a tax of one-fifth of the produce. In the Provinces which formed the old Kandyan kingdom the tax is universally one-tenth or one-fourteenth, and is levied under the authority of the Proclamation of November 21, 1818. The tax in the Sinhalese maritime provinces was, until the passing of the Ordinance No. 11 of 1878, farmed under the provisions of the Ordinance No. 14 of 1840 to renters. In the Northern and Eastern Provinces, under voluntary agreement with the cultivators, a money payment replaced the tythe to some extent. Since the enactment of Ordinance 11 of 1878 the tax has been commuted for a money payment throughout the Western, Southern, and Eastern Provinces. In the Northern Province the farming of the tax and the voluntary commutation continue side by side. In the Kandyan Districts, consisting of the Central Province and the Province of Sabaragamuwa, the Kurunégala District of the North-Western Province, the North-Central Province, and the Province of Uva, the tax was in the early times of the British occupation collected in kind: this system was replaced between the years 1827 and 1832 by a voluntary commutation for a money payment, which, however, was not renewed in the North-Western Province after 1832, or in the North-Central Province after its separation from the Northern Province. In the two last-named districts the tax is now farmed. The greater part of the Central Province, the Province of Sabaragamuwa, and part of the Province of Uva have been recently placed under the provisions of the Ordinance No. 11 of 1878. Part of the Central Province is voluntarily commuted, and in part of the Province of Uva the tax is now farmed.

Rent or Tax on Fine Grain.—Recognised by the Proclamations of September 3, 1801, and April 22, 1803 (which impose generally a tax of one-tenth on the produce of all high lands, viz., of lands not adapted to the cultivation of paddy), and recognised by the Ordinances 14 of 1840 and 29 of 1865. In the Western Province this tax is levied in the old Kandyan divisions only, according to the tenure on which lands are held or according to the ancient usages and customs of the country. The tax payable under clause 13 of Ordinance 11 of 1878. The proceeds sale of illicit cultivation of fine grain on Crown land are also brought to account under this head. In the Northern Province the rate of tax is one-fifth for jungle cultivation and one-tenth for all the others. In the Kandyan territories tax is levied on one species only of fine grain namely "el-wí," but the other varieties are exempted from taxation under the Proclamation of November 21, 1818.

Rent of Gardens.—This revenue is derived from the produce of Government gardens, either rented or collected in sumani (that is in kind). In the Central Province the rents derived from small Crown lands and on reserved Crown lands on sides of public roads which are permitted to be cultivated, are also brought to account under this head.

Land Rents Redeemed, improperly termed "Tythes Redeemed."—A measure adopted in 1813 by Government, under the conviction that cultivators of Crown paddy lands would cultivate them more carefully and with greater advantage to the revenue, if subjected to payment of one-tenth only instead of the one-half or one-fourth. The redemption is effected by the occupier paying ten years' value of the difference between one-tenth and the share hitherto payable, in four instalments as per Colonial Secretary's letter No. 709 of July 9, 1880. The permission to redeem the rent altogether, which was at one time granted on the application of the owner, has been suspended.

Rent of Lands.—The receipts under this head are collected from the rental of Government lands, leased at will, and a fixed rate per acre on Government lands encroached upon by private parties.

Royalty on Cabook Stones, &c.—A payment of Rs. 3·75 is levied on every 1,000 cabook stones cut from the Government pits in the districts of Colombo and Negombo; of 50c. per 100 cubic feet of sandstone quarried between Hendala and Pamunugama; and 6c. on every cart-load of white sand removed from the Maradána cinnamon gardens.

Plumbago Licenses.—The lessee pays for a lease of one acre for the term of one year the sum of Rs. 10 in advance, and further one-tenth part of all plumbago dug on the premises demised during the continuance of the lease, or a sum equal in value to such proportionate amount. Such further sum to be paid on or before the day of expiry of the lease. This amount is collected by the headmen.

Rents, exclusive of Lands.

This head embraces the amount for which the Government farms out the privilege of collecting the tolls leviable at the different roads, bridges, ferries, and canals, and the lock at St. Sebastian, under the Ordinances 14 of 1867 and 12 of 1887. It also includes the rental paid by the public officers for the occupancy of official residences, and also rent of buildings used as markets, coal-sheds, ice stores, &c.

Licenses.

Arrack, Rum, and Toddy.—The exclusive privilege of retailing spirits distilled from the palm tree, and arrack, rum, and toddy, generally farmed in the several Provinces—regulated by the Ordinances 10 of 1844 and 5 of 1881.

Duty on Arrack and Rum Stills.—Under this head are brought to account sums received for licenses issued to distillers of and wholesale dealers in arrack and rum, under the Ordinances 10 of 1844 and 5 of 1881. The license is granted by the Government Agents on the payment of the sum of Rs. 100, and is in force from the date of such grant until the 31st day of December next thereafter.

*Licenses to retail Beer or Porter and Intoxicating Liquors.**—These licenses are issued for the retail of beer or porter and intoxicating liquors, with the exception of arrack and rum, under the Ordinance 23 of 1877. The license is granted by the Government Agents on the payment of the sum of Rs. 10 to sell beer or porter only, Rs. 30 to sell intoxicating liquor generally (not to be consumed on the premises), Rs. 100 to sell intoxicating liquor generally (to be consumed on the premises), and Rs. 250 to keep an hotel; and is in force from the date of such grant until the end of the year.

Chanks.—Under this head are brought to account sums received in consideration of permission granted to individuals to dig for dead chanks in Crown lands, being equivalent to one-fifth of the value of the shells procured. This branch of revenue, which is peculiar to the Northern Province, is protected by the Ordinance 4 of 1842.

Chank Fishery.—Under this head are brought to account sums received for permission granted for the employment of boats and divers in the chank fishery. The Ordinance 5 of 1842 provides that no fishery shall take place but by permission of Government, and the Government has made rules for the granting of such permission on payment of these fees.

The head "Licenses" also embraces receipts from the following taxes, &c.:—

* Rs. 50 for a license to possess opium; Rs. 200 and Rs. 250 for licenses for selling opium and bhang by retail and wholesale, respectively, in certain towns proclaimed under the Ordinance 4 of 1878; Rs. 2·50 for a license for the storage of Petroleum, under Ordinance 3 of 1878.

Royalty on Elephants removed from the Island, under Ordinance 13 of 1869 and Proclamation of June 27, 1882.—On each Elephant, Rs. 100.

Stamps.

Amount of stamps for certificates of admission of persons to act as Advocates and Proctors, levied under Ordinance 12 of 1848.†

Proceeds of stamps in judicial process and for general purposes in the Kachchéries, District Courts, Courts of Requests, and Police Courts, and by licensed vendors throughout the Island, under the provisions of the Ordinance 3 of 1890.

Composition for stamp duty on bank notes in circulation.—Recognised by Ordinances 2 of 1861 and 3 of 1881.

Stamp duties levied under the Land Registration Ordinances 8 of 1863, 3 of 1865, and 13 of 1881, and fees for registering grants of Crown lands are also brought to credit under this head, as well as certain other stamp duties enumerated in page 33.

Proceeds of postage stamps sold are also accounted for under this head.

Taxes.‡

Under this head is brought to account an assessment tax, generally 5 per cent. on the annual value of all landed property within towns, forts, and gravets. It is levied under the provisions of the Ordinances 16 of 1865, 19 of 1871, 3 of 1875, and 7 of 1880.—See pages 45 and 46.

Under the provisions of the Ordinances 17 of 1865 and 7 of 1876, the collections within Municipal Towns and in towns in which Local Boards of Health and Improvement have been established have been transferred to the Municipalities and Local Boards.

† Under the provisions of the Ordinances 17 of 1865 (section 60) and 7 of 1876, the Stamp Duties on certificates, &c., of Proctors and Advocates have been transferred to the Municipalities and to Local Boards of Health and Improvement.

‡ Under the provisions of Ordinance 17 of 1865, the collections within Municipal towns have been transferred to the Municipalities.

Postage.

Postage on letters, &c., regulated by the Ordinances 2 of 1878 and 40 of 1884.

Proceeds of postage stamps sold are accounted under the head Stamps, under the Ordinances 27 of 1865, 10 of 1869, and 13 of 1871.

Fines and Forfeitures.*

This head includes the amount of fines levied and the proceeds of articles confiscated to the use of the Crown by orders of the Courts of Judicature, as also occasionally sums realised by the seizure of crops grown on Crown lands without permission, and confiscated timber removed without license.

Sale of Government Property.†

Under this head the following receipts are brought to account :—

1. The proceeds of all salt sold in the manufacturing districts in the Northern, Eastern, North-Western, and Southern Provinces, under the Ordinances 3 of 1836, 1 of 1838, 26 of 1852, and 2 of 1864. By Ordinance 14 of 1857, the importation of salt into this Island is allowed on payment of a duty of Rs. 2·13 the cwt. The Ordinance 17 of 1840 makes further provision for the protection of this source of revenue. By the Ordinance 5 of 1856 jurisdiction is given to Police Courts over offences punishable under the Ordinances above referred to, and the law relating to this branch of revenue is also amended in certain respects.

The salt revenue is a Government monopoly ; but in the Jaffna District of the Northern Province the monopoly is occasionally rented out annually ; the renter who purchases the monopoly of the retail sale being supplied by Government with salt at 40c. per cwt., which he is allowed to retail to the public at Rs. 2·24 per cwt. Salt is also sold for export to released districts and for export beyond sea at Rs. 5·25 per ton.

In all the other salt manufacturing districts salt is sold exclusively by Government to retailers and wholesale dealers at Rs. 2·36 per cwt.‡

2. Amount realised by the sale of Government buildings.
3. By the sale of timber from the Government Forests.—Recognised by the Ordinances 6 of 1878 and 10 of 1885.
4. By the sale of unserviceable timber and stores, &c.
5. By the sale of the produce of the Botanic Garden, Péradeniya, and crops on Crown land.
6. By the sale of Delft horses.

The regulations for the protection of the pearl banks are the Dutch Proclamations of May 28, 1665, and November 15, 1745, and the Regulation 3 of 1811. The Ordinance 18 of 1843 prohibits the possession within certain limits of certain nets which might otherwise be used to the detriment of the banks.

Special Receipts

are the fees established by the Governor's Minute of May 14, 1875, for the preparation of title deeds of Government lands sold to individuals, and fees payable upon the issue of extracts from registers of births, marriages, &c., and on granting copies of notarial documents ; also fees for testing weights and measures under Ordinance 8 of 1876, and inspection fees under the Inventions Ordinance, 1859.

THE REVENUE OF 1889 AND 1890.

Cause of Increase or Decrease.
Increase under this head is attributed to the large sums collected in the Western Province on account of previous years.
Increased importation of general goods. Less plumbago exported.
Increase in number and tonnage of vessels.
Decrease chiefly due to the failure of crop in the Eastern and Northern Provinces and to remission of commutation in certain villages in the Northern Province.
The cause of this decrease is that the toll rents fetched lower prices in 1890.
There has been an increase in the amount realised by the sale of Arrack Licenses in every Province, due to the returning prosperity of the Island.
Improvement in the chank trade.
Increase probably due, as in the case of Licenses, to the returning prosperity of the Island.
Fluctuating.
Do.
Outstandings of 1888 recovered.

Cause of Increase or Decrease.

Saving of a portion of the salary of the Superintendent.
Additions to staff consequent on the opening of the Bentota Railway, and increments to officers.

Decrease only apparent; pay of labourers in preceding year was brought to account under the head of Establishments, while it is now brought to account under Services exclusive of Establishments.
Additions to staff.

Decrease caused by death of pensioners and by more favourable rate of exchange.
Increase chiefly on cost of manufacturing salt and on expenses of the Pearl Fishery.
Increase only apparent. In 1889 a portion of expenditure under this head was brought to account under Deposits, Lapsed Loan Board Funds. In 1890 the whole expenditure was charged to General Revenue.

Increase due to opening of new hospitals and outdoor dispensaries and to the outbreak of epidemics.
Extra expense was incurred in 1889 on account of the Police Commission of Inquiry.
Establishment of temporary jails in the North-Central Province for prosecution of archæological discoveries.

Increase caused by payment of passage money to Public Officers proceeding on leave and changing stations.
Decrease only apparent; the last instalment due to India on account of the Indian Telegraph cable was paid in 1889: corresponding expenditure was unnecessary in 1890.

} Larger expenditure was incurred consequent on larger grants having been voted for the year.

Expenditure on special votes incurred in 1889 raised the expenditure of that year beyond the normal amount.
Decrease caused by favourable rate of exchange.
Additional expenditure on account of Queen's House furniture and conveyance of stores.

Increased cost of contribution to Military chest and further expenditure on account of Colombo Defences.
No expenditure in 1890.
A fluctuating item.
Several parcels of land were acquired for Government purposes.
Hire of a fifth immigrant vessel, hospital charges on account of sick immigrants, and other extraordinary charges swelled the expenditure.
There ought to have been a large saving due to favourable exchange, but it has all been absorbed by special expenditure for new rolling stock and permanent way materials.
Favourable rate of exchange.
The amount voted for expenditure for dredging plant does not appear to have been incurred, hence a decrease in the expenditure.
Less sum voted for expenditure in 1890.

RETURN OF PRISONS AND PRISONERS.

Replies to the Questions, compiled from the Returns of the Respective Superintendents.

QUESTION I.

If the prison is on the separate system, is the separation complete? And if not, what is the separation enforced by day and night, respectively?

The male prisons at Welikada and Slave Island and Breakwater Jails are on the separate system, with the exception of two temporary wards at Welikada, in which 144 prisoners are in association. Prisoners placed in a refractory cell for misconduct are in separation by day as well as by night.

Juvenile offenders are in Colombo and Kandy kept entirely apart from adults both by day and night.

At Slave Island there is a ward for men under medical observation prior to removal to hospital.

At Bogambra there are 324 cells, and at Mahara, Kandy (old jail), Galle, Jaffna, and Batticaloa there are from 40 to 100 cells at each prison, which are used for locking up the longer-sentenced or indifferently-conducted prisoners, the rest being kept in association wards.

At the other prisons of the Island there are fewer cells, as stated in answer to Query III.

In all prisons males are invariably separated from females, by day as well as by night.

At Welikada and Galle known prostitutes are kept in a separate yard by day, and at night locked up in separate cells. At Kandy, also, prostitutes are kept apart from other females. All other female convicts are kept in association. Unconvicted prisoners are kept apart from convicted prisoners. Hulftsdorp and Kandy (old) prisons are almost exclusively devoted to the safe custody of unconvicted prisoners, only a few convicts being kept at these prisons to attend to jail services.

In other prisons the unconvicted are locked up at night separately, as a rule, and every endeavour is made in the absence of divisional yards to keep them apart by day. This is the more easily done as the majority of convicted prisoners in such jails are at work outside for many hours.

At Welikada, Slave Island, Breakwater, Mahara, and Bogambra, no unconvicted prisoners are, as a rule, ever lodged.

QUESTION II.

If not on the separate system, what provision is there for the supervision of the prisoners while in association?

The males are supervised by male officers of various grades, and the females by matrons, in all jails.

QUESTIONS III. AND IV.

How many cells are there; and how many associated wards? Taking the *average* number of prisoners in jail, how many cubic feet of space are there for each prisoner during the hours of sleep?

Jails.	Cells.	Wards.	Average cubic feet of space during 1890.

QUESTION V.

How are the prisoners classified?

The classification in the Ceylon Prisons is as follows:—

(1) Males, convicted, who are sub-divided as follows:—

a Penal stage, or rigorous hard labour.
b Second stage, or industrial hard labour.
c Third stage, or industrial light labour.
d Road Ordinance defaulters (except those committed under Ordinance 31 of 1884, who are treated like other hard-labour prisoners).
e Simple imprisonment only.

* There were temporary sheds erected in these jails.

(2) Females, convicted, in same class as males.

(3) Males, unconvicted, who are sub-divided as follows:—

a Debtors, Crown.
b Debtors, private.
c Persons committed in default of bail, witnesses, &c.
d Persons committed for further examination by Police Magistrates.
e Persons committed for trial by Superior Courts.
f Persons committed to await sentence and pending appeal.
g Accused persons arrested on warrants in transit to other stations.
h Suspected lunatics committed for medical observation.

[At Colombo, Kandy, Galle, Jaffna, and Batticaloa no lunatics are now committed to prison, proper and separate houses of observation having been provided, which are placed under the control of the Medical Department.]

(4) Females, unconvicted.

These are the recognised divisions for classification, but (except separating males from females) it is not possible in the present stage of the Island prisons to invariably keep these classes distinct from one another, except as stated in reply to Query I.

QUESTION VI.

Is penal labour—that is, labour by treadmill, crank, or shot-drill—in force?

Shot-drill, coir-beating, and stone-breaking are in force in some of the prisons for convicted male prisoners, except offenders committed under provisions of local Ordinances for acts not in themselves otherwise criminal.

Stone-breaking has been introduced as the chief penal labour within the walls of the jail during the latter end of the year.

QUESTION VII.

If so, during what periods of imprisonment, in respect of what classes of prisoners, and during how many hours, is such penal labour enforced? In stating hours of treadwheel labour, give, first, the total time on and off at the wheel, &c.; secondly, the length of spells and intervals of rest.

The jails where shot-drill is carried on all classes of convicted prisoners in the penal stage, and who are not exempted therefrom by the Medical Officer on account of bodily infirmity, perform shot-drill for two hours in the forenoon, and two hours in the afternoon of every week-day. Shot-drill has now been almost entirely superseded by stone-breaking at which the prisoners work all day.

QUESTION VIII.

What kind of labour, other than penal labour, is in use?

Within the walls of the prison:—

a All jail services, including cooking for convicts.
b Coir-beating, stone-breaking, and coir-twisting.
c At Welikada, carpentering and mat-making are carried on, also all the clothing for the prisons of the Island is made up, besides the uniform for the officers of the Convict Establishment. There is also a blacksmiths' and tinsmiths' shop.
d At Negombo, baskets, brooms, and other miscellaneous rattan work.

Convict labour has been extensively employed outside the jails, as will be seen from reply to Query IX.

QUESTION IX.

If the prisoners are employed beyond the walls of the jail, state—

(1) On what kind of work they are so employed?

At *Welikada* the convicts were employed in whitewashing and repairing Jail quarters, repairing roads, and at the Bankshall reclamation works, and transporting and carting stones.

At *Slave Island* and *Breakwater*, in the Harbour works, Bankshall reclamation works, stacking and loading sand for Mahara, carting sand, and filling low grounds at the back of the Surveyor-General's Office.

At *Mahara*, in mining and quarrying stone, and breaking into road metal for the Public Works and other Departments.

At *Negombo*, in water-carrying, and filling Kamachodai pond.

At *Kandy*, in repairs to public buildings.

At *Galle*, in carting water, quarrying and breaking stone and repairing and constructing public buildings.

At *Tangalla*, in carting stone, repairing and improving public roads.

At *Hambantota*, in collecting salt and other works connected with the Salt Department, and making concrete cement pipes.

At *Tissamaharama*, in repairing temporary bridges, opening roads, repairing Zoda Kandiya bund, and repairing police barracks.

At *Kurunégala*, in constructing and repairing roads within the town and wedging and removing stone for paving town drain.

At *Kanedrawe*, in burning lime.

At *Miriswettiya*, in execution of brick work in restoration of Dágoba.

At *Abhayageria*, building Dágoba.

Besides these special works, the prisoners at outstations are employed in cleaning and scavenging public latrines and premises, keeping the minor roads in order, as also the grounds about Government buildings, planting Government lands with ornamental trees, punkah-pulling, and sundry other small works.

Punkah-pulling and scavenging of public latrines have been discontinued since the latter end of the year.

(2) How are they supervised?

At Slave Island and Breakwater and at Mahara by the Assistant Superintendents, Jailors, Deputy Jailors, and the usual staff of party officers.

At Welikada the parties are visited by the Superintendent and Assistant Superintendent, as well as the Jailor and Deputy Jailors frequently during the day.

At the Welikada, Slave Island, Breakwater, and Mahara prisons there is the usual staff of overseers, sub-overseers, and guards, besides the superior officers named above.

Every prison has a Jailor, who visits outdoor working parties frequently.

At Kandy, Galle, Hambantota, and Jaffna the convicts are supervised by overseers in addition to the ordinary guards.

At other prisons there are only guards or peons, varying according to the number of prisoners—as a rule, one officer to every ten convicts at work.

(3) How many escapes of prisoners, while being employed beyond the jail, have taken place during each of the last three years?

(4) How are the profits of their labour accounted for?

An account of the labour contributed to each work is kept, from which the reply to Query XI. is compiled, but no money passes, nor is the labour paid for, except where articles manufactured in prisons are sold, when the actual cash realised is paid into the nearest Kachchéri and brought to account as revenue. The amount recovered on account of metal is also credited to Government.

QUESTION XII.

What are the number of the hours allotted for sleep? And, if sleep is in association, are the dormitories lighted; and how often are they patrolled during the night?

The hours of sleep are from 6 P.M. to 5 A.M., as laid down in the Prison Manual, Rule 186. This regulation is reported as carried out, and in all prisons the dormitories are lighted and patrolled at night.

QUESTION XIV.

Is there, or are there, any chaplain or chaplains of any, and what, religious persuasions?

There are no Prison Chaplains, but accredited ministers of all persuasions are admitted on application.

QUESTION XV.

Are religious services regularly, or otherwise, performed for the benefit of the prisoners of any, and if any, what religious persuasion?

At Welikada, Slave Island, Breakwater, Borella Hospital, Hulftsdorp, Bogambra, and other principal jails frequent services are held both by Protestant and Roman Catholic ministers, on Sundays; and religious instruction is also given by catechists of various denominations regularly. At other prisons such services are held whenever any minister expresses a wish to do so. Religious services are also held by Buddhist priests in some of the jails.

QUESTION XVI.

Are Roman Catholic priests and Dissenting ministers allowed free access to prisoners of their own persuasion? And are they apprised when prisoners of their respective persuasions enter the prison?

They are allowed free access, but are not informed when any such prisoners enter the prison, unless at the express wish of a prisoner.

QUESTION XVII.

What provision is made for the education of prisoners?

At Welikada education is confined to the juveniles by paid teachers, for three hours a day on week-days, and three hours on Sundays.

At Slave Island and Breakwater teachers appointed by Government hold school from 11 to 1 o'clock every Sunday.

At Negombo teachers appointed by Government hold school from 12 to 2 P.M. on week-days, and on Sundays from 6 A.M. to 10 A.M.

QUESTION XVIII.

On what conditions are remissions of imprisonment granted?

Good conduct, by which is meant industrial good behaviour in matters of discipline. Remissions of terms of imprisonment are granted in proportion to the number of good conduct marks earned by prisoners. Ordinarily, the number of marks a prisoner can earn in a week is nine, and the highest remission a prisoner can obtain by uniform good conduct is two-ninths of the whole term of imprisonment to which he was sentenced, exclusive of the period of three months passed in the penal stage. When suitable work is available, all well-conducted, long-sentenced prisoners, who have been over two years in jail, are eligible to earn one additional mark a week on becoming efficient artizans. After they have earned a further instalment of 1,040 marks such workmen are eligible to earn two marks per week extra, and upon earning another instalment of 1,144 marks they become further eligible to earn three marks extra a week; but the number of these is very limited. A prisoner sentenced to one years' imprisonment or under is not eligible for any remission of his or her sentence.

QUESTION XIX.

Have coroners' inquests been held on every occasion of a death in prison during the past year? And what were the verdicts?

Every death is reported to the Police Magistrate or Deputy Coroner, and inquires under chapter XVII. of the Criminal Procedure Code are held on every occasion. The number of deaths and inquests held have been as follows:—

Jails.	No. of Deaths.*	Jails.	No. of Deaths.*	Jails.	No. of Deaths.*	Jails.	No. of Deaths.*

QUESTION XX.

(1) What was the sanitary state of the prisons during the year 1890?——Satisfactory.

(2) What were the prevailing diseases?——Dysentery, fever, bowel complaints, and diarrhœa.

* Exclusive of those executed, but includes deaths of prisoners in Civil Hospitals.

† These prisons are the sanitaria of the Department, where old, weakly, and sickly convicts are sent.

QUESTION XXI.

What are, shortly, the rules as to diet?

The following is the dietary scale now in force in all prisons :—

The quantities specified are a day's consumption for an adult, and are served out at three meals: one at 5.30 A.M., consisting of bread, tea, &c.; one at 11 A.M., consisting of one-half of the remaining articles; and the remainder at 5.30 P.M. In the case of juvenile offenders under sixteen years of age a deduction is made of one ounce of bread, six ounces of rice, and one-fifth of the ration of meat.

Full Diet is only given to prisoners under sentence of death since the latter end of the year.

Penal Diet is given to convicted prisoners with sentences of two months and under, during the whole of their term; to other convicted prisoners during the first two months of their sentence.

Ordinary Diet is given to all unconvicted prisoners, and to all convicted not entitled to full, or liable to penal diet.

Punishment Diet is only given when specially ordered as a punishment for breach of prison rules and regulations.

As an exceptional measure, and in view of the more severe labour exacted in Mahara quarry, exceptions are made to the above rules from time to time.

At Welikada European and Burgher prisoners receive ordinary diet.

I.—What quantity of Water is available for each patient every day?
What is the source of the Water Supply?
What is the quality of the Water?

II.—Detail the arrangements as to Baths and Lavatories.

III.—What is the system of Sewerage; and what the condition of the Privies?

ANSWERS.

Western Province.

Leper Asylum, Hendala.—An ample supply. The Kelani river, in the vicinity of the hospital, and the wells in the hospital grounds. The quality of the water derived from these sources is comparatively pure and good; the drinking water obtained from the wells is, after filtration, free from organic taint; the river water serves the purposes of ablution. There are seven bathrooms in connection with the hospital, supplied with hot and cold water, according to the requirements of the patients. The dry-earth system is in use in well-constructed latrines, in which metal pails are placed as receptacles for the excreta, and a quantity of dry and sifted earth reserved for the purpose of deodorisation. The latrines admit of the utmost cleanliness and free ventilation, and are constantly whitewashed and disinfected. The sewage is removed twice a day, and incinerated in deep pits at a distance from the hospital.

General Hospital, Colombo.—Unlimited. The general town water supply. Pure and fit for drinking. Cemented baths in eight lavatories, water for the general water supply from the town. Dry-earth system: the night soil is carted away to a distance at midnight. The privies are always clean, dry, and free from smell.

De Soysa Lying-in Hospital, Colombo.—Unlimited. Labugama water supply. Good. Water for drinking purposes is filtered before use in patent porcelain filters. There are two outhouses, one on each side, connected with the main buildings by corridors and verandahs. In each range there are dry-earth latrines and bathrooms, the latter being used as lavatories. No sewers. Open cemented drains for surface water only. Dry-earth latrines emptied twice a day.

Pánadure.—Unlimited. From a well in the hospital premises. Good. There are two lavatories, one for males and the other for females. Each of these has two cemented tubs. The dry-earth system is in use. The buckets are removed twice a day, and the contents buried far away from the hospital. Each privy contains three zinc buckets.

Kalutara.— Unlimited. Two wells in the premises. Soft and potable. There are baths attached to the latrines at the end of each ward, patients who are able resort to the river for bathing. Latrines are on the dry-earth system, and are in a satisfactory condition.

Negombo.—As much as each patient wants. For cooking and drinking, water is supplied by the contractor, who obtains it from some wells near the hospital. For all other purposes water is obtained from two wells in the hospital premises. The water used for cooking and drinking is of good quality, and is the best that can be obtained in the town. There is one lavatory for females and three for males. For bathing, water is obtained from the wells in the hospital premises. There are no privies, but there is a latrine for females and three latrines for males, which are all conducted on the dry-earth system. The filth from the latrines is removed as often as necessary, and buried after disinfection.

Central Province.

Kandy.—Unlimited. Water is supplied by the Municipality. Good. The water is filtered before being used. One large bathroom for the native male wards and another for the female patients. There are also three others, for the use of European patients, officers of the hospital and nurses. There is a main sewer underground. The privies are all on the dry-earth system; the contents are incinerated in two pits, at each end of the hospital grounds, at a distance from the wards: this system works very satisfactorily without causing the slightest smell.

Katugastota.—Any quantity, as the river is just opposite the hospital. From the Mahaweli-ganga. Good. Water boiled and filtered before use. The patients bathe in the river. The contents of the latrines are daily removed out of the hospital premises. The latrines are on the dry-earth system.

Gampola.—Ample quantity of water is available for each patient every day. A well in the hospital premises. Satisfactory. There are six bathrooms attached to the hospital, four for males and two for females; each room is provided with a large bathing tub. The water for bathing is obtained from a well in the hospital premises. There are three latrines, which are conducted on the dry-earth system; the excreta is removed twice a day, and buried at some distance from the hospital.

Mátalé.—An almost unlimited quantity. A spring, about a mile from the town. It is conveyed to the hospital in iron pipes, and is the same as that with which the town is supplied. It is hard, and sufficiently pure for drinking purposes, and is always filtered before use. There are five bathrooms attached to the hospital, three for males and two for females. They are situated at each end of the building, and are quite separate from the wards. There are covered passages leading to them. The bath tubs are filled by the coolies, and are cleared immediately after use. The dry-earth system is in use here. The night soil is removed and buried in pits at a distance from the hospital. The system answers admirably well. The latrines are in a very satisfactory condition. They are always kept clean, and frequently whitewashed. The floors and lower portion of the walls are tarred.

Nuwara Eliya.—The quantity of water available for each patient is unlimited. A large stream that flows past the hospital, and comes direct from the forest at back of hospital. Pure and wholesome, it is carefully filtered before use. There are two bathrooms, one for the male patients and the other for the female. Each bathroom is provided with a bathing tub, and the water is taken from the stream close by. The male bathroom is provided with a large copper boiler for hot water. There are two sets of latrines for male and female patients respectively. The dry-earth system is strictly carried out, and the latrines are in fair order. The excreta is daily removed to some distance from the hospital and carefully buried.

Dikoya.—An unlimited quantity. The hill above the hospital where there is a spring. Pure and free from contamination. There are two bathrooms, one for males and one for females: each is supplied with a wooden bath tub, which is filled by pipes leading to them. The drains are daily flushed, and the dry-earth system is carried out in the latrines; the night soil is removed at regular intervals and buried at a distance from the hospital. The privies are clean and in good order.

Lindula.—The water being obtained from two perennial springs close to the hospital, there is an unlimited supply for the use of the patients. From two springs. Good, clear, sparkling, odourless, palatable, and wholesome. Two bathrooms are attached to the hospital, one for males and one for females. Dry-earth system. The excreta is removed morning and evening and buried in a receiving pit.

Uḍa Pussęllâwa.—Ad libitum. From a stream running by the hospital. Pure. Water for drinking and cooking purposes is filtered. There is a bathroom attached to the hospital, and water is conveyed by a spouting to a tub. There are two latrines on the dry-earth system, one for males and one for females. The excreta are removed every morning and buried some distance from the hospital.

Kęlębokke.—An unlimited supply. A stream from the hills. Very satisfactory; filtered for drinking purposes. A bathroom provided with a tub. The dry-earth system. The privies are clean and in good order.

Maskeliya.—Ad libitum. Stream. Pure. One bathroom for males and one for females, with a tub in each. Dry-earth system.

Northern Province.

Vavuniya.—Any quantity is available. From the two wells in the hospital grounds. Good, and apparently free from organic impurities. Drinking water has been filtered before use. Two cemented bath cisterns have been provided, one for male and the other for female patients. Filled with water daily by the hospital attendants. The general surface drainage is satisfactory and sufficient. Two permanent dry-earth latrines have been provided. The contents are daily removed by the latrine cooly specially appointed for that purpose, and buried at a considerable distance from the hospital. Close stool buckets are provided for those unable to move out of their bed. The latrines are kept clean and tidy, and in good order, one for each class of patients.

Mullaittivu.—An unlimited quantity. From two wells in the hospital premises. Brackish, except in winter slightly turbid; but boiled and filtered for drinking purposes. There are two separate buildings, for each sex, provided with cemented baths, water being conducted from one of the wells through separate spouts. There are two permanent cemented latrines conducted on the dry-earth system, one for each sex. They are clean and in good order.

Point Pedro.—An unlimited quantity. From two wells in the hospital premises. Water is clear, colourless, transparent, and free from organic impurities. The drinking water is subjected to filtration before use in ordinary chatty filters. There are two outhouses, one for each sex, at some distance from the wards. Each contains a bathroom and a latrine separated by a wall. Dry-earth system is in use in well-constructed cemented latrines, and iron buckets are used as receptacles for the excreta, which is disinfected with a liberal supply of McDougall's disinfecting powder.
